Key Benefits

Access to tenured PPM best practice experts

Covestic has been enabling customer PMO solutions for more than 15 years. We are a unique partner in that we combine deep ServiceNow platform expertise with a specialized practice area focused on creating PPM solutions and honing project delivery.

Access to experienced, certified resources

Leverage certified ServiceNow solutions consultants and PMP certified staff to ensure solutions are aligned to best practices and your unique business needs.

Guidance for the journey

Covestic works with you to define a long-term roadmap aligned with your business strategy while helping you execute on quick wins to improve your capability. We break down the PPM journey into manageable steps having an immediate impact on your organization.

Covestic is a ServiceNow Authorized Partner

ServiceNow has relied on Covestic to deliver solutions to customers since 2012. We are committed to readying your people, processes and tools for a successful PPM implementation that is not just accepted by its users, but embraced.

We bring a proven, repeatable approach to each project and partner with you to architect and engineer solutions that work today and scale for tomorrow.

ServiceNow is a different kind of ITSM solution

ServiceNow's Software as a Service (SaaS) solution provides the complete package when it comes to functionality, security, flexibility, scalability and value.

When combined with Covestic's deep platform and project management expertise, you can focus less on data management and program/project administration and more on providing accurate, critical information to your business leaders.

► **Let's Begin.** We're passionate about working with our customers to drive down costs and maximize value via the ServiceNow platform. To learn more about Project & Portfolio Management contact us at (425) 803-9889 or servicenow@covestic.com.
