

servicenow INTEGRATION TOOLKIT

Integration Services

Covestic has developed various packaged integrations for the ServiceNow platform, allowing us to minimize the time and effort to complete most integration projects. We leverage out-of-box integration adapters or build custom adapters for your specific business case. Using standardized methods, Covestic integration toolkits will reduce the duration of most ServiceNow integration projects. Our integration approach is based on the following objectives to ensure quality and consistency:

- Ease of Code Maintenance/Ease-of-use
- Security & Platform Stability
- Performance & Speed (Leverage Existing SDKs)

Covestic can integrate most applications or data sources in less than 2 weeks! This includes recurring uploads, one-way synchronization, and bi-directional synchronizations. Using standard integration methods to include Web Services, JDBC, and SOA, Covestic has developed integration toolkits to provide rapid integration with many popular applications, platforms, and custom applications.

About ServiceNow

ServiceNow is a different kind of ITSM solution. The traditional ITSM solutions can take years and legions of consultant to deploy and require heavy development cycles to meet requirements. The “me too” Software as a Service (SaaS) solutions do not provide the complete package when it comes to functionality, security, flexibility, scalability and value. ServiceNow is the complete package at a fraction of the total cost of ownership of the traditional solutions.

Given the open nature of ServiceNow, integrations with third party solutions are almost limitless. This flexibility is one of the great benefits of ServiceNow, but can also lead to a great deal of complexity. Therefore, it is critical to approach integration projects methodically to avoid lengthy development cycles.

Covestic & ServiceNow

Covestic is a ServiceNow Authorized Partner. We apply over a decade’s service management know-how to readying your people, processes and tools for a successful implementation that is not just accepted by its users, but embraced. We don’t approach projects expecting fully-defined requirements – we partner with you to architect and engineer solutions that work today and scale for tomorrow.

Let's Begin

We’re passionate about working with our customers to achieve much more than a tool implementation. Our goal is to help you achieve measurable outcomes and to maximize your return on your ServiceNow investment.

Contact us at (425) 803-9889 or info@covestic.com for a discussion regarding your integration needs.
